POSITIVE QUOTE OF THE WEEK

*Imagination is
more important
than knowledge.*

*Knowledge is
limited.*

*Imagination
encircles the
world.”*

~ Albert Einstein

The Diversity Corner

Featured Leader – Albert Einstein (March 1879 – 18 April 1955) was a German-born theoretical physicist who is widely held to be one of the greatest and most influential scientists of all time. Best known for developing the theory of relativity, Einstein also made important contributions to quantum mechanics, and was thus a central figure in the revolutionary reshaping of the scientific understanding of nature that modern physics accomplished in the first decades of the twentieth century.

Other important events for the month of October - German American Heritage Month

POSITIVE QUOTE OF THE WEEK (SUMMARY) – This quote reminds us that God has given us a very special gift, and that is the gift of imagination. With the everyday struggles of life we sometimes forget to exercise this particular gift. This special gift requires us to think “outside” of reality and to develop a new, positive image of ourselves and our situations. **Knowledge is limited** but your **imagination is limitless**. Always use your imagination and keep on dreaming! Remember “sky’s the limit”

~ COREY SHORTER, CIDE, ST. MARGARET OF SCOTLAND
